

Product QA Lead

Vacancy Code: 01072010-05

Location: Kiev, Ukraine

Posted: 01.07.2010

Auditdata (www.auditdata.com) is a Danish company with headquarters in Copenhagen, and subsidiaries in the Nordic countries, Germany, and the UK. The company was founded in 1992. Auditdata develops and supports office management software and measurement equipment for audiologists and hearing instrument dispensers. Our solutions offer hearing care professionals in a range of European markets the most complete, user-friendly applications available for handling all aspects of their daily work.

Auditdata is current seeking professionals for its Kiev-based, Ukrainian subsidiary, "Auditdata Ukraine TOV", to occupy the following position(s): **Product QA Lead**

Your role and responsibilities will include:

- You will have the full QA and test responsibility for one of the products in Auditdata's portfolio.
- At the same time, you will work with the other Product QA Leads and your colleagues from the development groups with test and QA activities across Auditdata's software projects.
- You will take part in maintaining/updating the company's QA Test Policy
- You will take the QA product ownership to ensure implementation of this QA Test Policy for the product, for which you are responsible.
- You will be working closely on developing and implementing new QA initiatives and standards together with the QA center in Copenhagen
- You will participate in the ongoing test and QA activities, including:
 - QA review of solution specifications
 - QA Test Plan preparation
 - QA Test Design (Test Cases + Data)
 - QA Test Execution (manual + automated)
 - QA Test environment maintenance
 - QA Test tool administration
 - QA Test Report
 - Weekly project status reports on QA activities
 - Make Readme-file and Installation guide for the AuditBase product.

Your competencies and skills should match most of the following requirements:

- You are a very structured and quality minded person, and you have experience with organizing your own test and QA activities as well as coordinating activities with other QA and development teams.
- You have a minimum of 5 years experience in software testing and/or ISEB Foundation certification in Software test.
- You are able to foster mutual respect between the QA/Test team and the development teams, and to ensure a good common understanding and shared goals between the teams.
- You have solid experience with developing, updating and maintaining QA Master Test Plans (QA strategy).
- You are good at communicating with other team members from QA and development teams
- You are the ambassador of quality among your colleagues and don't take NO for an answer.
- You have HP Mercury Quality Centre or similar test management tool experience.
- You have strong experience in testing on current Microsoft Platforms and web based solutions.

- You have fluent communication skills in spoken and written English.
- You have a MS/BS degree in Computer Sciences, IT or equivalent.
- Familiarity with working according to SCRUM/Agile processes will be a plus
- Familiarity with working with automated test tools (functional, performance, load & stress testing) will be a plus.

Auditdata offers:

- Long term mutual commitment working in a stable, international, professional and fully legal company with a mid-sized team of high-skilled colleagues
- All tax administration (registration, reporting, tax payments, etc.) is handle by the company (the individual person does not need to do anything)
- Health insurance is provided
- Performance or retention bonuses are offered
- Full annual paid vacation of 24 days as well as national holidays off
- Normal 40 hour working week; flex time can be agreed
- Optional benefits such as technical training, English lessons, memberships, etc. (individually agreed)
- Possibility for travel to company headquarters or clients (in Europe)
- Semi-annual development interviews (personal development, career development, goals, remuneration adjustments, benefits)
- Modern office facilities in central Kiev – cafes, canteen, fitness centre, parking, close to metro
- Corporate events and outings
- High professional standards and modern equipment
